

Dear Sirs:

I am against further relaxation of ownership rules on media ownership. Allowing further media concentration will be a tragic mistake to our country and democratic values. Don't Enron independent journalism and diversity of media ownership.

Thank you,

Our future democracy needs restriction on media ownership.

Managerial capitalism has demonstrated the lack of public interest in the single pursuit of profits and self-gain. Public interest needs diversity of media ownership to insure different voices can be heard. Democracy is founded on free speech and the collective understanding of diversity of ideas. Limit ownership of media to insure independent journalism.

We need regulation of media ownership to insure good journalism.

A very concern voter about the direction of our democratic country,

Wilson Leong
